ACTIVITY: Freshness	COLUMN CC:

Fresh from France

Showcasing video and experimental art, two exhibitions open in the city.

EXHIBITION Freshness, that's what the exhibition—conducted by the media art in association with the French embassy—is called. It features about 25 artists from across France. And for the first time, an exhibition is talking about video-art. Video art is not

a mere trend, it is today's main form of art, the same way photography was the main form of art of the 1970's. The funniest, shortest, most poetic and avant-garde inventions are created through video art.

The artist Michel Numisdany is an art critic for *Le Figaro* and

has contributed to the France Culture Art press. Now if that is fresh enough for you, then just check it out.

At Apeejay Media Gallery,
On December 18 and 19.
Time: 6 pm to 9 pm.
CALL: 29893765, 51677071.
